*Comment date:* February 1, 2000, in accordance with Standard Paragraph E at the end of this notice.

#### Standard Paragraphs

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

[Project No. 2474-004 New York]

#### Erie Boulevard Hydropower L.P.; Notice Extending Time To Comment on Draft Environmental Assessment

January 12, 2000.

The Federal Energy Regulatory Commission issued a Draft Environmental Assessment (DEA) on November 24, 1999, considering issuance of a new license for the Oswego River Hydroelectric Project, located on the Oswego River in Oswego County, New York, in accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897). In the DEA, the Commission's staff has analyzed the potential environmental impacts of the existing project and has concluded that approval of the project, with appropriate environmental protection measures, would not constitute a major federal actions

significantly affecting the quality of the human environment.

The Commission requested comments on the DEA within 45 days, or by January 8, 2000. Erie Boulevard Hydropower L.P., in its December 27, 1999 letter, requested an extension of time to complete its review of the DEA. In consideration of the holidays which fell during the review period, I am extending the DEA comment period until January 31, 2000.

Copies of the DEA will remain available for review in the Public Reference Branch, Room 2-A, of the Commission's offices at 888 First Street, NE, Washington, DC 20426.

Anyone wishing to comment in writing on the DEA must do so no later than January 31, 2000. Comments should be addressed to: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. Please affix on the first page the caption "Oswego River Project No. 2474-004" to all comments and letters.

For further information, please contact Charles T. Raabe at (202) 219-2811.

**Linwood A. Watson, Jr.,**  
*Acting Secretary.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP00-55-000]

#### Distrigas of Massachusetts Corporation; Notice of Intent To Prepare an Environmental Assessment for the Proposed Distrigas LNG Plant Modifications Project and Request for Comments on Environmental Issues

January 12, 2000.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the construction and operation of the facilities proposed at Distrigas of Massachusetts Corporation's (DOMAC) liquefied natural gas terminal (LNG Plant) in Everett, Massachusetts.<sup>1</sup> This EA will be used by the Commission in its decision-making process to

determine whether the project is in the public convenience and necessity.

#### Summary of the Proposed Project

The proposed project would allow DOMAC to establish a mutually beneficial thermal energy exchange arrangement between its LNG Plant and the Island End Cogeneration Project (Power Project), a nonjurisdictional electric generating Facilities Siting Board (Siting Board) on October 8, 1998. DOMAC proposes to supply 66,000 MMBtu per day of regasified liquefied natural gas (LNG) to the Power Plant Project and to modify its existing vaporization facilities to use low-grade waste heat from the Power Project. Specifically, DOMAC requests Commission authorization to:

- Install a closed-loop hot and cold water thermal energy transfer system consisting of piping, a warm water storage tank, water-to-water heat exchangers, and five water pumps;
- Replace existing low, medium, and high pressure vaporizers with equivalent capacity shell-and-tube hot water heat exchangers compatible with the thermal energy transfer system;
- Perform minor LNG Plant modifications necessary to meter and connect the Power Project's fuel supply line to the LNG Plant; and
- Install a new utility water supply system to serve both the LNG Plant and the Power Project.

The general location of DOMAC's proposed project facilities is shown on the map attached as appendix 1.<sup>2</sup> Construction of the proposed facilities would occur completely on land owned by DOMAC or on the adjacent Power Project site.

#### The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. We call this "scoping". The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission requests public

<sup>1</sup> DOMAC's application in Docket No. CP00-55-000 was filed with the Commission under Section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.

<sup>2</sup> The appendices referenced in this notice are not being printed in the **Federal Register**. Copies are available on the Commission's website at the "RIMS" link or from the Commission's Public Reference and Files Maintenance Branch, 888 First Street, NE., Washington, DC 20426, or call (202) 208-1371. For instructions on connecting to RIMS refer to the last page of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.
